

§Appl. No. 10/676,048
Amdt. dated September 27, 2005
Reply to Office Action of,

In the Specification:

Please amend the specification as follows:

The last paragraph bridging pages 7 and 8 has been amended as follows:

The window sleeve 10 is configured to ease new construction as well as facilitate replacement of window units 12. Since as seen in Fig. 1, the window unit 12 is independent of the sleeve 10, the The window units 12 may be of any style, and may for example have sliding sashes or pivoting sashes (Figs. 1, 5 and 7), or may use fixed planes of glass. By utilizing the window sleeve 10, faster and more accurate construction of window openings is achieved, resulting in a decrease in expense as well as increased flexibility and reliability.
